

Newly Created Google Calendar Doesn't Appear On iPhone/iPad/iPod

- 1) On your iPhone, iPad or iPod go to <https://m.google.com/sync/settings/>
- 2) Sign in and select Sync if needed.
- 3) Select your device such as iPhone.
- 4) Select the calendars you want to display and sync on your phone. You should see the new calendar listed.
- 5) Check your phone and the new calendar/s should now appear.
